JMJ Associates Celebrates 25 Years of Enabling Companies to Achieve Peak Performance

AUSTIN, TEXAS, July 1, 2012—JMJ Associates, a global management consultancy specializing in Enterprise Transformation, marks a major milestone when it celebrates its 25th Anniversary in August of this year. In 25 years, JMJ has changed the way large capital projects are executed around the globe. They have also brought the new standard of an *Incident and Injury-Free*[®] (*IIF*[®]) workplace to industries where environments with no safety incidents may have once been considered impossible.

Founded in San Francisco in 1987, the company now enjoys global reach, employing nearly 250 people in offices on six continents. JMJ will officially celebrate its history and growth with events in each of its six business units on September 20, 2012. This Silver Anniversary celebrates JMJ’s past achievements and its continued commitment to *Making the Impossible Possible, Making the Possible Real*[™]. Today, having refined and broadened its core service offerings—the *IIF*[®] safety, *High Performance Projects*[™] and *Executive Coaching*[™] approaches—JMJ will continue to focus its growth on improving the well-being of people and the success of companies around the world.

“As JMJ reaches its 25th year, we are celebrating by remembering the difference we have made in the world in partnership with our clients,” said CEO Stephen Portner. “The lives we have helped change and those that we have saved have been our biggest successes, and we thank our clients for having the trust in us to join them on their journey.”
